

PRESS RELEASE

ZACH PIETRINI + MCKENNA BRAY

EP "MODERN LOVE"

Memphis & Milwaukee collide with singer-songwriters **Zach Pietrini & McKenna Bray**. With Pietrini's compelling songwriting from the Midwest and Bray's vocal prowess from the South, the two initially joined forces to tour together March 2020. When the shutdown cancelled the tour, Pietrini and Bray began writing together almost every week. The results of which exploded into the "**Modern Love**" EP.

Each song off this record takes a different spin on the joys and pains of love. Be it the wistful account of "Young Love", the burning tale of a lover scorned in "Ends In Fire", or the tenderly honest "Yours", this EP packs some serious insights in a five song punch.

Caleb Fisher (Corey Wong, Matthew West), producer of Bray's previous singles, took on the role as co-producer with Pietrini and Bray. Flying up to Milwaukee, the three worked with engineer **Kyle White** at Cave Studios. Soon after the recording session in Milwaukee, Pietrini & Bray finished writing two more additional songs and went off to Nashville to record at Farmland Studios with Fisher.

"**Modern Love**" is set to fully release **September 10, 2021** with two singles, "**Young Love**" **May 14, 2021** and "**Yours**" **July 9, 2021** with a music video to follow. Come **October**, Pietrini and Bray will tour the EP throughout the Midwest and South.
